

Appl. No. 09/933,542  
Amdt. dated Oct. 14, 2003  
Reply to Office action of Aug. 5, 2003

## **REMARKS/ARGUMENTS**

In the specification, the Abstract of the Disclosure has been amended to meet the MPEP requirements, as very kindly advised and guided by the examiner.

The examiner has acknowledged that Claim 1 is directed to allowable subject matter. Again, as guided by the examiner, the incomprehensible parts of Claim 1 have been deleted and Claim 1 is amended according to the draft proposed by the examiner to make it conform to MPEP requirements.

The applicant would again like to make the submission before the Office that his being a native of a very distant country, where training in the use of English language is not rigorous at all, seems to hamper his pursuance of the application, in spite of much effort on his part.

The applicant finally expresses his profound gratitude to the examiner for undertaking a lot of labor to try helping him with correct drafting. He wholeheartedly thanks the Office for all the guidance. In his present weak financial position, the invaluable help extended by the Office in the prosecution of the application has made the applicant highly obliged and thankful in this regard.

Respectfully submitted,

*Anadish Kumar Pal*
